

See our sheds in a whole **new** way!

▶ SHED BUILDER APP

Download the app on the iTunes and Google Play Stores

Shed Builder by Ranbuild, the easiest way to see your new shed today.

Ranbuild's new Shed Builder app allows you to easily create and customise your own shed or garage in 3D. Create your perfect shed or garage and tailor it as you see fit. Choose from any of the great Ranbuild shed, garage, barn or carport buildings. You can set the size of your shed, roof pitch, as well as change the colours of the COLORBOND® cladding of the roof and walls to match your surroundings. Add in windows, P.A doors and roller doors then personalise your shed further with additional accessories.

You can save your shed at any time and once you're done send it off to your local Ranbuild dealer for quoting.

All Ranbuild sheds are built Shed Safe, using Aussie made BlueScope Steel and finished in a range of COLORBOND® colours. Download the app today from the Apple App Store or Google Play.

Build your own Ranbuild shed or garage today! It's not just a shed, it's a Ranbuild!
